When searching for an alphabetical list of all 50 states of the United States, these lists are often displayed in a way that makes it difficult to copy for your own use. Many times they're displayed in two to four columns so when it's copied, the states aren't in alphabetical order when pasted into a new document. For that reason, we have created a list of all 50 states in alphabetical order in a single column so it can be used by others who need it for school, business or some other project.
